

We Need You and Your Club Member's to Join in the Fun of Sun City's First Garden Railroad Project

The word is spreading fast about the construction that has started between Mulligan's windows and the beautiful fountain pond. A large group of your neighbors have spent years talking about building the **Red Poppy Garden Railroad** and now it's time to raise money to pay for it.

Our own Red Poppy Garden Railroad will be a fully functional model railroad (G Scale) perched in a very large, raised garden bed (approximately 45' by 85'). The model train will run around and through a replica of our own Downtown Courthouse Square. The first stages, including site construction, have begun. [But...to finish this project we need your financial support.](#)

This exciting project was presented to the Community Association's Property/Grounds Committee (CA) and got unanimous approval.

Are you ready to get on board? We have Three Easy Ways to Donate.

1. **Look for the donation boxes** at Mulligan's, Wriggley's and the CA front desk to make your contribution.
Make checks out to SCTXCA.
2. Or you can **donate using your credit card** at the SCTX website by going to the Ticket Purchase Section.

3. Or simply use your phone to **scan this QR Code** and instantly use a payment method of your choice.

Your HOA fees will NOT be impacted by the Garden Railroad.

We need to raise an estimated \$65,000 to make this project the envy of all cities in Williamson County. We are also seeking donations and sponsorships from our Sun City and Georgetown area businesses. Responsibility for operation, security, and long-term maintenance will be the Radio Control Models Club, not the CA.

Without everyone's financial support this project simply won't be built. Please help us raise the money by contribute Today!
