

VOLUNTEERS OF THE MONTH

Super DUPRs - D'Les Longino, Rita Danklefs, and Pete Nadolski

Rita

Pete

D'Les

By now most club members know what DUPR is and how it works. Just the sound of "duper" elicits club member emotions that range from love to hate to fear to indifference.

The jury is still out on whether the club will permanently adopt DUPR as its rating system, but there are 3 club members that have been working hard to help assess its credibility.

Since the first part of July, D'Les Longino, Rita Danklefs, and Pete Nadolski have been performing a 10-point data entry routine for every Round Robin and Team Pickleball game that has been played. It's a tedious task that requires attention to detail and strong communication among our event coordinators and the DUPR Support Team.

There's no guarantee where the club will go with DUPR, but we appreciate the time and effort these folks put in to help us in our search for a player rating solution.

Sprucing Up the North Point Courts - Tori Basque

When we were getting ready to make the club ball machines available for member use, we changed out the old orange dollar store balls with the club preferred Franklin X-40s.

Rather than dispose of the old balls, Tori jumped into action and came up with the idea to make Halloween

wreaths for the upcoming Pumpkin Bash. She recycled the old balls to make decorations that will serve the club for years to come.
