Tracking prevention ?

Websites use trackers to collect info about your browsing. Websites may use this info to improve sites and show you content like personalized ads. Some trackers collect and send your info to sites you haven't visited.

Tracking prevention ☑

Basic

- Allows most trackers across all sites
- Content and ads will likely be personalized
- Sites will work as expected
- Blocks known harmful trackers

Balanced

(Recommended)

- Blocks trackers from sites you haven't visited
- Content and ads will likely be less personalized
- Sites will work as expected
- Blocks known harmful trackers

Strict

- Blocks a majority of trackers from all sites
- Content and ads will likely have minimal personalization
- Parts of sites might not work
- Blocks known harmful trackers

Blocked trackers >

View the sites that we've blocked from tracking you

Exceptions >

Allow all trackers on sites you choose

Always use "Strict" tracking prevention when browsing InPrivate ☑

Simply toggle features on or off based on your preferences. It's an easy way to fine-tune your Windows experience to suit your needs.

Adblock for Windows

Windows 11 includes ads by default in the form of Microsoft promoting its own services and apps. These ads can include fun facts, tips, tricks, recommendations, and suggestions within the UI of Windows 11.

- Start Menu Ads
- Personalized Ads
- Welcome Experience Ads
- Finish Setup Ads
- General Tips and Ads
- Settings Ads
- Lock Screen Tips and Ads
- File Explorer Ads
- Tailored experiences

Debloat your system

You have two options: either manually select and remove specific apps, or utilize the Assisted search button to let Clippy effortlessly handle the entire process for you.
