

MEXICO Carol and Ted Van Dyken

Every year the Van Dykens travel to their other house, located in the Yucatán Peninsula, near the small pueblo of Chemuyil, which is Mayan for "heart of the tree".

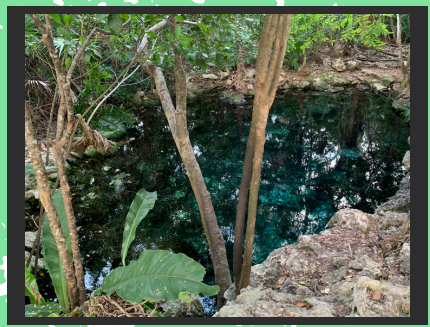

Man selling fruit at XpuHa Beach

Roadside taco stand outside Tulum where Carol had lunch on a "ladies day out"

Fruit stalls at the market in the colonial city of Valladolid

One of the cenotes* in Carol and Ted's neighborhood

*Cenotes are underground cave systems that occur when the limestone plateau that covers large parts of Mexico's Yucatán Peninsula is undercut by water.

Bee a volunteer

With sincere gratitude we thank all of our current volunteers for everything they do to make N64 a truly wonderful neighborhood.

The ALTERNATE is the backup for each position if the position holder is unavailable or needs assistance. For more information about each position check the N64 microsite.

QUILTING Bee!

**Barbara McClellan
Award Winning Quilter**

Barbara McClellan has the brain of a mathematician and a heart of an artist. This couldn't be more evident than by looking at her remarkable quilt collection. What began as a sewing and cross stitching hobby, grew into a true passion for quilting. Her extraordinary talent has resulted in winning so many quilt awards it would be impossible to list. Some of her noteworthy first place and viewers choice awards are from the Chisholm Trail Quilt Guild, the Georgetown Quilt Show, the North Texas Quilt Festival and the National Association of Certified Quilt Judges. Barbara began by making Civil War quilts and now has a abundant and impressive array of quilts of every color, size, and design for all seasons. Barbara belongs to the Sun City Quilting Club who are currently using donated material to make "Comfort Quilts" for needy children.

HOBBY CORNER

Did you know your neighbor, Phil Newberg has had an interest in model trains since the 1950's along with his brother, Eric? As kids, the two brothers loved playing and riding trains.

Phil once belonged to the New Braunfels Historic Railroad and Modelers Society for six years.

Phil Newberg

When Phil retired in 2006 from the Air-force Civil Service, he took a serious interest in collecting Model American Flyer Train and has a real knowledge of railroad history. Phil has an operating American Flyer model train layout in his garage, call him if you wish to see it. Phil also enjoys woodworking and is the entrance chairman for N64 along with being an alternate block captain for block #3.
