Current Topics

audience**insights**

What is it?

AudienceInsights is a Web application offering analysis and statistics based on anonymous data collection.

How information is collected?

Our partners' websites and applications host our program that collects information and sends it to our servers where it is stored and analyzed.

What is collected?

We collect only anonymous data through anonymous cookies and technologies that record:

- events related to your activity on the partner's website (such as the number of pages viewed or your searches made on the partner's website),

- information provided by trusted partners that may include socio-demographic data such as age range.

We do not collect any personal information. We do not know who you are. We do not know your residential address, your email address, your phone number or any other personally identifiable information about you.

We do not collect sensitive information (such as medical condition, bank account...).

Current Topics

The Adthink script contains very detailed categories for personal, financial, physical traits, as well as intents, interests and demographics. It is hard to comment on the exact use of these categories but it gives a glimpse of what our online profiles are made up of:

birth date, age, gender, nationality, height, weight, BMI (body mass index), hair_color (black, brown, blond, auburn, chestnut, red, gray, white), eye_color (amber, blue, brown, grey, green), education, occupation, net_income, raw_income, relationship states, seek_for_gender (m, f, transman, transwoman, couple), pets, location (postcode, town, state, country), loan (type, amount, duration, overindebted), insurance (car, motorbike, home, pet, health, life), card_risk (chargeback, fraud_attempt), has_car(make, model, type, registration, model year, fuel type), tobacco, alcohol, travel (from, to, departure, return), car_hire_driver_age, hotel_stars
