\*Interior Paint

Use the Modifications Committee Application **Form B-2** when requesting approval for **changes** in exterior paint.

- Cottage Homes: Must submit a B-2 Form signed by both home owners every time. Can only be painted with the original color scheme and both sides shall be painted in their entirety at the same time with the same color).
- Custom Homes: Low-light-reflective colors are preferred.
- All Other Homes: The home owner may repaint the exterior of the home, entirely or in part, with existing colors.

The following conditions are the only limitations to All Other Home owner's choice when changing colors:

- The colors designated for Stucco, Garage, Fascia, Columns, Pop-outs, Front Door and Shutters or Gable Vents are restricted to the use designated.
- Semi-gloss shall be used on the garage and the front door. Flat or low-sheen paint shall be used on all the stucco. Flat or semi-gloss may be used on all remaining areas.
- 100 series homes shall use two or three colors. 200, 300 and 400 series homes shall use no less than three colors with a stained front door counting as one of the colors.
- Garage doors can be painted with the original color, or the current primary color of the house.

The Modifications Committee will consider paint colors that are close to those available in the Pulte/Del Webb color palette. Color samples need to be mapped to approved colors and submitted with the application. They will remain in the property folder for the home.

## Initial Interior Paint Colors

100 and 200 Series homes:

- walls and ceilings are Linen or Summertime
- trim, baseboards, and doors are White Chip

300 Series homes:

- walls and ceilings are Summertime
- trim, baseboards, and doors are Decorator White

400 Series homes:

- walls and ceilings are Natural Choice

All interior paint was water based.
