Create Projects and Slideshows in the Photos App with Project Extension Apps

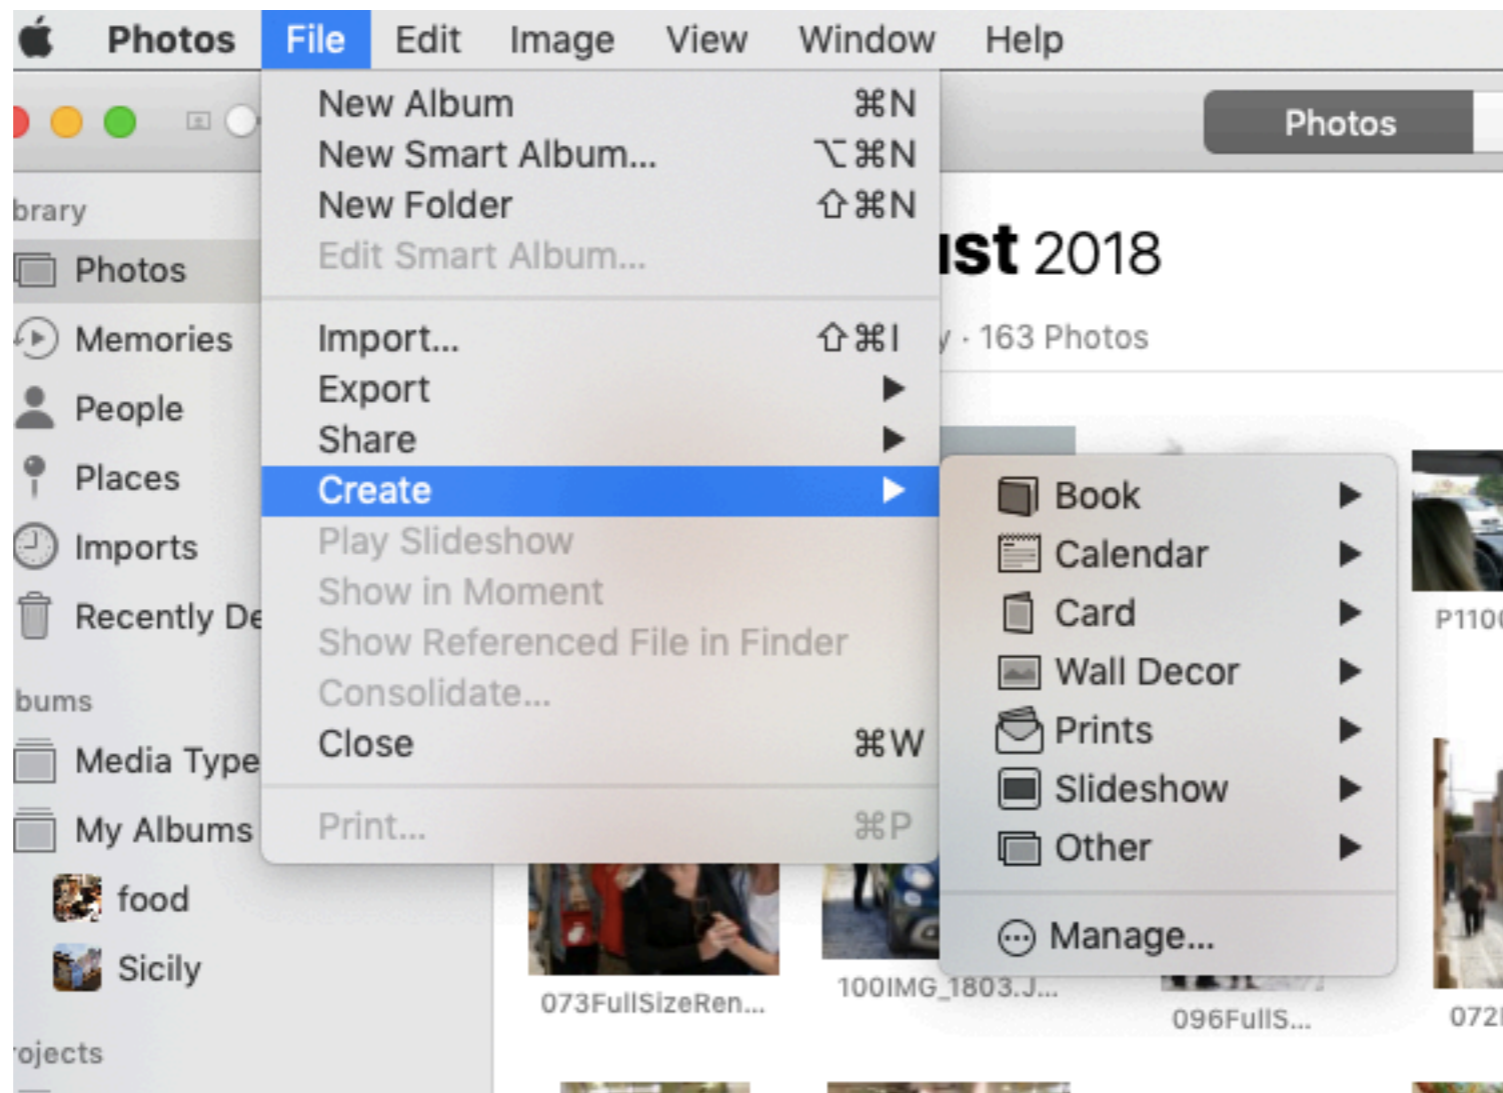

(To get started, [make sure that your Mac is running macOS High Sierra 10.13 or later.](#))

Some Project Extension Apps will only run in macOS 10.14 Mojave

As of September 2018 Apple discontinued their printing services

- The Good News - you can create books, calendars, cards and so many more projects.....
- The Bad News - you have to learn a new App
- The Best of both worlds - you have been using a third party service that is an Extension App ...Shutterfly, Mpix or others
