Older Windows update urged

Older versions of Microsoft's Windows Operating System, think Windows XP and Windows 7, are vulnerable to yet another malware attack. This attack can and does act like a worm - malware that duplic...

One ring Phone scam

Reports from other regions of the U.S. now reported in Texas. A single ring, often at night. The one ring call may be repeated. The area code 222 or 232. These area codes are in Africa. If and when the called party calls back they will incur large charges on their next phone bill.

The scam uses a victim's curiosity to solicit the call back. So don't.

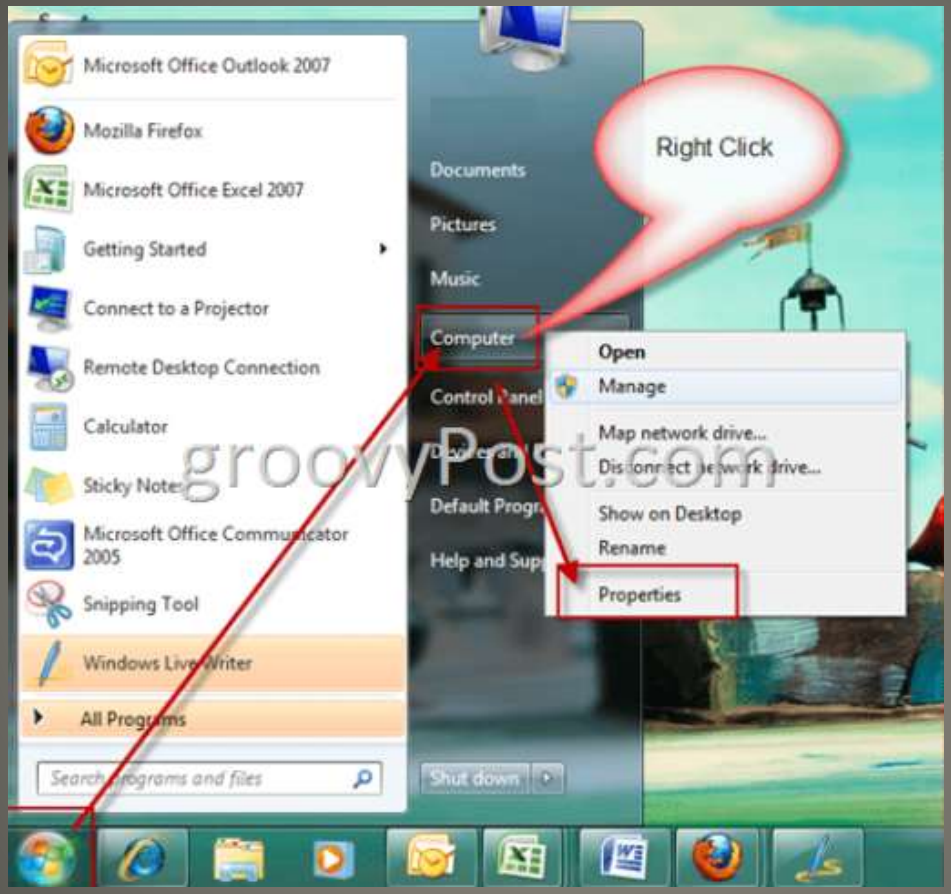
Simple theme. Powered by Blogger.

Current Issues

- Firefox add-ons
- Tor browser re-size warning
- Scavenger hunt bitcoin wallet
- Chrome & Firefox ban obfuscated code
- Chromium Edge browser growing pains
- Social Media before Social Media
- What’sApp update encouraged
- Windows XP and Windows 7 patches

Remote Desktop Protocol (RDP)

- Allows “others” to *access* your desktop
- If used in the past, set and forget
- Similar to *WannaCry*?
- Cost



RDP Windows 7
