Safer WEB Browsing

Safer WEB Browsing Class video

Audio Recording & video at link

- Any length
- Any time
- Any schedule
- Timeliness
- Pause and continue
- Pause and look up for clarity
- Skip over
- Play again and again
- Adjust video size
- Adjust audio level
- Available to new users Months from now

Advantages to PowerPoint delivery

- No Questions
- No visual feedback

Disadvantages of PowerPoint Delivery

- Safer not Safe
- E-postcard not e-mail
- ADMINISTRATOR

[Sun City Computer Club Cyber Security News BLOG - Administrator](#)

- Passphrases not passwords
Credential spraying
- Radio not wireless
- Identity cloning
- Helpful <-> Harmful

Vocabulary

Is your credit card number in a hacker's database?

You can easily find out now! All you need to do is enter its information here and we will scan thousands of hacker databases to see if any they have match yours.

Credit Card Number:

Expiration Date:

Your Zip Code:

SCAN DATABASE

- First job computing 1962
- 9 years semi-conductor manufacturer
- 30 years Cyber engineer Major Oil Co.
- Very early WEB experience
- 3 years Alyeska Pipeline
- Major Cyber Security Certifications
- Network of cyber professionals
- Computer Club presentations
- Cyber Security SIG, Windows SIG
- Senior University Cyber topics

What does John know

- Trust
- Convenience

- FOMO
- Curiosity

- Any/everyone can have a voice

Fundamental Issues

- Over a BILLION web sites
- Over 4 billion users on Internet
- If you can see them, they can see you

- Connectionless
- Not intended for current use
- Query & Response
- Client Server
 - either can run code on the other
- Any/everything apps, attachments, audio, video
- Interpreters/helpers
- ActiveX, Java, scripts, shells
- HTTP
- HTML

WEB issues

- Akamai, cloud
- Increased use of third party services
- What, me worry?
- Information gives no indication of being stolen
- Information is cumulative

WEB issues

- Name resolution
Own name, Hosts file, NetBIOS, DNS
- Domain Name System
Distributed, hierarchical, caching database
No authentication
- BGP
routing, No authentication

Journey to the Web site

- 1-2-3-4
- Steganography
- Hash
- Symmetric
- Asymmetric

cryptography

- 1-2-3-4
- Algorithm
- Key
- Plain text
- Cypher text

cryptography

Steganography

Original Image

Modified Image

Original Message

Hide Message

Hello Katie!

Extracted Message

Extract Message

Hello Katie!

Steganography

- One way
- Fixed length output
- Any length input
- Message digests
- E.g. MD2,MD4,MD5,SHA-1,SHA-2
- Used for integrity, digital signing & passphrases

hash

- Plain text, algorithm, key, cypher text
- Algorithm usually public
- Key space is important
- Reversible with the one key
- Does not scale
- E.g. RC4, SEAL DES, 3DES, RC5, Rijndael
- One-time pad
- Cryptanalysis
- Control

symmetric

- Confidentiality
- Integrity
- Authentication
- Non-Repudiation

CIA

- Public & private key
- Intractable problem
- Symmetric key exchange in presence of adversary
- Thousands of times slower
- E.g. RSA, El Gamal, ECC
- Public key distributed and verified via Digital Certificate
- Signing via digital signature

Asymmetric

- Code signing
- VPN
- Confidentiality
- Integrity
- Authentication
- Non-Repudiation
- Disk and file encryption
- IPSec
- PKI
- blockchain

Uses of cryptography

- Client hello
- Server hello
- Client validation and pre-master secret
- Both sides use secret to generate session key(s)
- Web session proceeds with data in transit encrypted with symmetric key(s)

Some detail

- Part of PKI
- Binding of public key to entity
- Verified and signed by certificate authority
- Chain of trust
- X.509

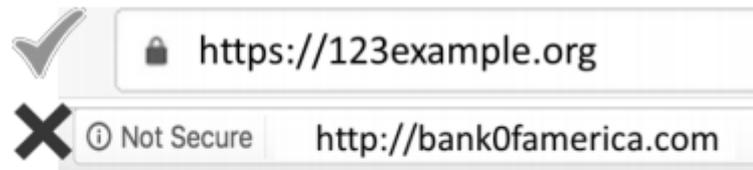

Digital Certificates

- SSL TLS
- Asymmetric used to exchange symmetric key

WEB transit security

WEB BROWSER SAFETY TIPS

- Use pop-up blockers. Pop-up rules can be changed in a browser's "Settings" or "Options" menu
- Look for the "S" after http in the web address, indicating the website is secure
- Look for a padlock in the address bar. The padlock indicates secure mode.
- Make sure automatic updates are turned on and working efficiently.
- Beware of using the autofill and built-in password management feature in your browser. Autofill fills in the fields on a form automatically, according to the information that the user has previously used. 13

Semantics Government Safe

- Virtual machines Linux
- Live CD/DVD
- Check for updates before each sensitive session
- New browser for each sensitive session
- Clickjacking
- Cross Site Scripting
- Cross Site Request Forgery
- “Private” sessions

Safer Browsing

- Browser wars
- Brave, Lynx
- Add-ons and extensions
 - uBlock Origin, NoScript, uMatrix, AdBlocker
- MultiFactor Authentication
- Maintain state
 - URL, Hidden form fields, cookies
- Proxy
- TOR
- Business Practices IRS – Phone Bank - PIN

Safer Browsing

- Methods
POST, GET, PUT, PATCH, DELETE
- Response
 - 1xx Informational
 - 2xx success
 - 3xx redirection
 - 4xx client error
 - 5xx server error
- Referrer
- Redirect
- F12

Browser window showing a search for "windows unexpected kernel mode trap" on duckduckgo.com. The search results include:

- Solved: UNEXPECTED KERNEL MODE TRAP in Windows 10**
URL: <https://tencomputer.com/unexpected-kernel-mode-trap/>
How to Fix Unexpected Kernel Mode Trap in Windows 10, 8, 7? Now that you are not sure what exactly gives rise to the 0x0000007F unexpected kernel mode trap on Windows 7, 8, 10. It is suggested that you manage to fix issues with the drivers, files, memory, system, and other parts on your PC step by step. Solutions: 1: Check Hardware Condition
- UNEXPECTED_KERNEL_MODE_TRAP error in Windows 10**
URL: https://www.thewindowsclub.com/unexpected_kernel_mode_trap-error-windows-10/
This bug check indicates that the Intel CPU generated a trap and the kernel failed to catch this trap. The common cause is hardware failure due to faulty memory. You need to track down the ...
