Welcome to the  
website of the  
Sun City Texas  
Computer Club.

Phone ~ Cyber Center: 512-868-9780

Lab Hours:  
Saturday ~ 9 a.m. - noon  
Monday through Friday ~ 9 a.m. - 3 p.m.

Help Center Hours:  
The Help Center is now open each Tuesday  
from noon to 3 p.m. and each Friday from 9 a.m.  
to noon.

We provide the following resources for our  
members:

- Computer Lab (Win and Mac)
- Free Wi-Fi
- Training courses (Win, Mac and beyond)
- Special Interest Groups (SIGs)
- Media conversion instruction
- Weekly newsletters
- New member orientation
- Fax transmissions
- Video editing

### Computer Club / Photography Club Cooperation

Sun City meeting space  
availability diminishes every  
year. In the spirit of neighborly  
cooperation, and to maximize  
the use of the facilities  
allocated to the Computer  
Club, the Board has welcomed  
the Photography Club for  
periodic classes and meetings  
in our facilities.

Contact  
[clubofficial@scctxcompclub.org](mailto:clubofficial@scctxcompclub.org)  
for more information.

# History of SCTX Computer Club

## The Founding of the Sun City Texas Computer Club: History and Documents Summer 1996

May 24, 1996: Note on interest by Dell Computer in hiring Sun City residents for part-time work. This announcement appeared in the June 1996 Newsletter (it hadn't been named Sun Rays at that point). Dell did not follow up on this contact.

July 1, 1996: Invitation to a "...Meeting to discuss possible SCGT computer and Internet activities: 7:30 pm Monday, July 8, 1996 at the Legacy Hills Picnic Pavilion" This invitation was distributed to mailboxes of 11 residents thought to be interested, asking them to invite their new friends and acquaintances. The distribution list of these 11 residents is included. Of these 11, in 2006 three still live in the same house here; and three are deceased, having served as officers and/or very active contributing members of the Club.

July 8, 1996: An agenda for the initial July 8 meeting to discuss possible SCGT computer and Internet activities. The 2nd and 3rd pages of this agenda contain summaries of of the number of responses to various questions raised at the meeting. See the next item for a list of those who attended or wanted to attend.

July 12, 1996: List of those who attended the July 8 meeting, or who could not attend but indicated interest in participating. Note that, of the 21 individuals or couples listed, 5 had e-mail addresses. The Internet was largely unknown among Sun City residents at that time. But it was known about enough to be a reason why some residents were interested in the meeting and subsequent developments.

July 15, 1996: Memo to Danny McCoy on setting up a community web site for Sun City Georgetown.

July 22, 1996: Agenda and summary of the 2nd meeting of those interested in computer and Internet activities. This meeting discussed the possibilities for a computer lab in the crafts building (undere

# Education

The Computer Club offers a great variety of classes. Contact the *Education Director* if you have questions.

*Please click ONLINE REGISTRATION CALENDAR (left side menu, under EDUCATION):*

- *to register for a class*
- *to find exact dates when a class will be offered*
- *to check if class seats are available*

## Classes Available in March:

- Cloud Computing
- Excel Ranges, Tables, Charts
- iPhone Basics
- iPhone Intermediate
- iPhone/iPad Photo Printing
- Mac: Accessibility Tools for those with limited hearing
- Mac: Calendar
- Mac: Email Advanced
- Mac: Keynote
- Mac: Maintenance Basics
- Mac: Music
- MS Paint
- Photoshop Elements 1
- Safer Web Browsing
- Windows 10

## Classes Available in April:

- Cut the Cords
- eBay
- Files and Folders
- iPhone Basics
- iPhone Texting
- Mac Accessibility Tools for People with Limited Hearing
- Mac Intro
- Mac Methods
- Mac Pages
- Mac Photos
- Mac Safari
- MS Excel Pivot Tables
- MS Word Intro
- MS Word Intermediate
- Photoshop Elements 1
- Photoshop Elements 2
- Safer Usages of Your Electronic Devices
- Understanding Wi-Fi and Routers
- Windows 10
- Windows Basics
- Word Intermediate

## What classes are available for me to take?

We offer a wide variety of classes. Click on "Class Descriptions" in the navigation menu to the left to see a *list of those classes*.

## In what order should I take classes?

For classes you might be interested in, read the course description (under Class Descriptions) to see if the class you want carries a pre-requisite. If it doesn't, sign up for the class you want. If it does, sign up for the pre-requisite and then you'll be ready for the class you want.

## What classes are offered right now?

Be sure to log in and then check the *Online Registration Calendar* for all classes being offered in a particular month. Classes are usually scheduled 6 weeks in advance.

Be a lifelong learner - TAKE A CLASS!

# Class List & Descriptions

Below is a list of the Computer Club's class offerings listed alphabetically by name. You can also on a class name to view the description for each class, what you will learn, its cost and suggested prerequisites for the class.

Click on the Interest Survey link in the navigation bar above to record your interest in a class being offered but not currently scheduled (see calendar) -- and to suggest new classes.

**COLOR KEY Note:** These classifications are somewhat arbitrary. If you have concerns, speak with the instructor.

- Class Content appropriate for all levels
- Class Content appropriate for those comfortable with computer use
- Class Content recommended for experienced computer users

(1 -2 -3) Indicates how many times the class meets.

You must be a member of the Sun City Computer Club in order to take a class. Sign up online (through ticketing) or at the Member Services office.

## Complete Alphabetical Class List

### A - F

- (2) *Alexa and Echo Devices*
- (2) *Cloud Computing*
- (2) *Computer and Information Security*
- (4) *Cut the Cords*
- (3) *eBay-Buy, Sell, and Ship*
- (1) *Facebook*

### G - L

- (3) *Genealogy-Beginning Genealogy*
- (2) *iPhone Basics*

- (4) *Mobile Photography Workshop*
- (3) *MS Excel 2010-Intro*
- (3) *MS Excel 2010-Formulas & Functions*
- (2) *MS Excel 2010-Pivot Tables & Charts*
- (3) *MS Excel 2010-Ranges, Structured Tables, Charts*
- (2) *MS Paint*
- (2) *MS PowerPoint 101*
- (2) *MS Word 2010-Intro*
- (2) *MS Word 2010-Intermediate*

# Lab Information

## Location

The Computer Lab is located in the CyberCenter at the Activities Center, 1 Texas Drive, across Texas Drive from the Social Center.

## Equipment

12 Windows PCs, 2 Macs, printers, scanner, fax, and media conversion equipment.

## Lab Usage

Club members may use the Lab equipment during Lab hours. Popular software is loaded on the Lab computers for your use. If you need to use a software program that you do not have on your home PC, check the Lab; it may be available on our computers. Internet and e-mail access via a broadband connection is available on all computer workstations.

## Computer Lab General Rules

- Open lab hours: 9 a.m. - 3 p.m. on Monday – Friday and 9 a.m. - noon on Saturday.
- A qualified Monitor / Instructor must be present for use of Lab equipment.
- Non-member residents will be allowed to visit the open Computer Lab a total of 3 times to evaluate the facilities before being required to join the Computer Club.
- Non-member residents are defined as: Members in good standing of the Sun City Texas Community Association; have been issued a CA Member Card; and have not yet joined the Sun City Texas Computer Club.
- Petitions for exceptions to the above procedures will be considered by the Executive Board.

## Printer Use and Suggested Cost Recovery Contributions

The Lab is equipped with a Color LaserJet All-In-One printer. It can be used to print, copy, scan, and fax.

Our printers and copiers are intended for our members non-business purposes.

# Lab Monitors

Want to volunteer? The CyberCenter Lab can always use additional Lab Monitors. The Lab cannot be open without a Monitor present. Each shift is 3 hours long. Two Monitors can be on the same shift.

## Lab hours:

Mon: Fri: 9 a.m. - 3 p.m.

Sat: 9 a.m. - Noon

Monitors are not expected to be computer experts. They greet members when they arrive, assist in signing in to the Lab, a class, or a SIG, and to know what equipment and software is available. They also assist in signing up for a class.

To volunteer or get more information email us at [monitors3@sctxcompclub.org](mailto:monitors3@sctxcompclub.org).

# Media Conversion

## Media Conversion Overview

### General Description

The Media Conversion Project provides a forum for the exchange of information and experience on the hardware and software used for the conversion of various types of media to USB, DVD or CD formats. There are five subgroups: 35mm slides, 8mm movie film, VHS tapes, photo, and audio which includes several tape and record formats.

This project will develop procedures for members to use to convert media. It will also recommend conversion equipment for purchase by the Club and supervise or instruct conversion sessions.

### The Project

The Media Conversion Project will focus on providing the hardware, software and training needed for Club members to convert their old analog media to a digital format. Included are both audio (LPs, cassette tape, reel to reel tape) and visual (photo prints, slides, 8 mm movie film, video tape) media. The objective is for members to do the conversion work themselves, once trained, using equipment that has been provided by the Club.

### Our Training Program

The training for media conversion equipment is provided by hands-on workshops for small groups of members (up to 3). The instructor will demonstrate the procedures and then allow participants to practice on the equipment. Handouts are provided as well.

To sign up for a workshop, go to the Computer Club website after logging into the CA website. All media conversion information is listed in the left pane under "Media Conversion". Workshops are free for club members.

## What is the Computer Club Help Center?

The Help Center is a service provided by Sun City residents to members of the Computer Club. The volunteers of the Help Center offer assistance with computer "problems".

### What is a computer problem?

The help center volunteers, attempt to provide assistance for many computer devices. There are volunteers that are willing to help with cell phones, tablets, PC's, Apple products, printers and network equipment. Assistance with phones or tablets is typically a software or "operator" issue. Assistance with PC's or Apple's can involve software, hardware, networking or the "operator". It is probable that one of the Help Center volunteers can help resolve or define the problem. If a problem is not resolved, we hope to define solutions that can be provided by local commercial services.

### How to get help

The Help Center provides help in the Computer Club Annex or in your home. Bringing your device to the Help Center is preferred? Why? The Help Center typically has multiple volunteers. Volunteers are able to consult with other volunteers in the Help Center. Networking and printer problems frequently require a home visit. For home support it is necessary to come to the Help Center to register the support request.

### What you should bring to the Help Center

If your problem is with a portable device (laptop, tablet, phone) or an all-in-one, bring the device and its power supply. For a desktop PC, the Help Center can provide a power cord, monitor, keyboard and mouse.

# Special Interest Groups (SIGs)

The image shows a screenshot of the Sun City Texas Computer Club website. The page has a light beige background. On the left is a vertical navigation menu with several items, including 'COMPUTER CLUB' (highlighted in orange), 'ARCHIVES', 'CLUB ADMINISTRATION', 'EDUCATION', 'LAB INFORMATION', 'LAB MONITORS', 'MALWARE HELP', 'MEETINGS', 'MEDIA CONVERSION', 'MEMBERSHIP', 'SPECIAL INTEREST GROUPS (SIGS)', and 'OUR WIKI FOR ONLINE HELP'. The main content area is titled 'Computer Club' in a large blue font. Below the title is a white box with a red 'NOTICE' banner and a link: '» Online Computer ... h Our Wiki'. A red arrow points from this link to a blue button in the top right corner labeled 'SPECIAL INTEREST GROUPS'. Below the notice is a link: 'Click here to take a virtual tour of our facilities.' To the right of this link is a white box with the text: 'Computer Club / Photography Club Cooperation' and a paragraph about meeting space availability. Below this is a 'Contact' section with the email 'clubofficial@sctxcompclub.org'. At the bottom right is an orange button: '» WHERE CAN I FIND THE COMPUTER CLUB?'. In the center of the page is a graphic with a group of colorful people and the text 'One of Us in 2020'. A red arrow points from this graphic to the 'SPECIAL INTEREST GROUPS' button. At the bottom of the page, there is contact information: 'Phone ~ Cyber Center: 512-868-9780' and 'Lab Hours: Saturday ~ 9 a.m. - noon, Monday through Friday ~ 9 a.m. - 3 p.m.'

» **SPECIAL INTEREST GROUPS**

*Click here to take a virtual tour of our facilities.*

**Computer Club / Photography Club Cooperation**

Sun City meeting space availability diminishes every year. In the spirit of neighborly cooperation, and to maximize the use of the facilities allocated to the Computer Club, the Board has welcomed the Photography Club for periodic classes and meetings in our facilities.

Contact  
clubofficial@sctxcompclub.org  
for more information.

» **WHERE CAN I FIND THE COMPUTER CLUB?**

*One of Us in 2020*

Phone ~ Cyber Center: 512-868-9780

Lab Hours:  
Saturday ~ 9 a.m. - noon  
Monday through Friday ~ 9 a.m. - 3 p.m.

# Computer Club Special Interest Groups (SIGs)

The Computer Club has many groups that meet each month to discuss topics of interest. Computer Club members, click on the SIG name below for description, and meeting schedule.

## *CyberSecurity*

This special interest group deals with CyberSecurity in all forms. Check out the news feed from the CyberSecurity SIG, which is an entry on the SIG menu.

## *First Time*

The First Time SIG is for members seeking answers to their questions about how to use computers. Its volunteers assist beginning computer users to become more knowledgeable about their computers and to use them more effectively. For more information click on the name *First Time* just above.

## *Genealogy*

The Genealogy SIG provides a forum for the exchange of information and experience about the use of computer programs and the many resources found on the web for genealogical research.

## *Hearing Solutions*

The HEARING SOLUTIONS SIG is comprised of those who seek knowledge regarding hearing loss, searching for solutions & related professional information. The SIG meets most months on the 2nd Thursday at 10:00 am in the Activity Building Atrium.

## *iDevices*

The iDEVICES SIG provides opportunity for sharing of experiences and knowledge about iPhones, iPads, Apple watches, iTunes & Applications. It meets most months on the 2nd Friday at 1:30 pm in the Activity Center Atrium.

## *Internet of Things (IoT)*

A forum for the informal exchange of information and to educate and guide one another on how to experiment, design, and implement the microprocessors, micro-controllers, sensors, and activators associated with the Internet of Things.

## *VectorVest*

The VectorVest & Beyond (VVB) Special Interest Group (SIG) provides a forum for the exchange of information and experience about investing software for curious members at beginning and intermediate levels. The goal is to learn more about using tools found within VectorVest.com and other software such as AAll.com, FinViz.com, Morningstar.com, and StockCharts.com.

## *Windows*

The WINDOWS SIG is dedicated to the understanding and proficiency of the Microsoft Windows operating systems. It meets the 2nd and 4th Tuesday at 9:00 AM.

## Internet of Things

What is the Internet of Things (IoT)?

To borrow the definition from Wikipedia:

The Internet of Things (IoT) is the network of physical objects or "things" embedded with electronics, software, sensors and network connectivity, which enables these objects to collect and exchange data. The Internet of Things allows objects to be sensed and controlled remotely across existing network infrastructure, creating opportunities for more direct integration between the physical world and computer-based systems, and resulting in improved efficiency, accuracy and economic benefit. Each thing is uniquely identifiable through its embedded computing system but is able to interoperate within the existing Internet infrastructure. Experts estimate that the IoT will consist of almost 50 billion objects by 2020.

Mission & Purpose of the IoT Special Interest Group

Provide a venue for Computer Club members to informally exchange information and to educate and guide one another on how to experiment, design, and implement the microprocessors, micro-controllers, sensors and activators associated with the Internet of Things. It is expected that this knowledge sharing will include programming, minor electronics and networking.

The IoT SIG will increase the member's knowledge of home automation and monitoring components and implementations and provide a venue for the exchange of IoT information.

### MEETINGS

We meet the second  
Thursday of each month at  
10 a.m. in the Annex.

Next meeting Thursday,  
March 12

Open to all Computer Club  
Members.

SIG MEETING NOTES

## iDevices SIG

The iDevices SIG is a supplement to classes that may be offered on the subject. This SIG provides opportunity for sharing of experiences and knowledge about iPhones, iPads, Apple watches, iTunes & Applications.

### MEETING TIMES

We meet the Second Friday of each month at 1:30 p.m. in the Activities Center Atrium. **No meeting in November or December.**

- Members will become familiar with their product.
- Members will share information about different applications available.
- Members will show how Applications work.
- Members will be able to share special "finds" used on their device.
- Members will discuss problems encountered using their device.
- We hope that everyone will have fun using their device.
- Members of the SIG will be encouraged to support others needing help.

## 2018

# CyberSecurity

**Life, Liberty and the Pursuit of Happiness** Any or all of these basic human rights can be taken by our current cyber environment, our home network, and/or our Internet connected devices.

**Life** *low risk* implanted medical devices, health records.

**Liberty** *medium risk* use of your network or device by criminals to attack others. Unwarranted surveillance.

**Pursuit of happiness** *high risk* fraud via your network or devices.

The Cyber Security SIG mission: To help preserve these rights by raising awareness, preparedness, and understanding of the threats and techniques that attack these rights.

The SIG is scheduled to meet on the first and third Thursday of each month at 3 p.m. in the Annex.

Topics for the SIG meetings are chosen by the SIG membership.

Current news articles are given in the **CYBERSECURITY NEWS BLOG** link on the SIG microsite.

To join the Cyber Security SIG contact the SIG at [SCCCCyber@gmail.com](mailto:SCCCCyber@gmail.com)

## patches and updates about 24-Mar-2020

Apple released iOS and iPadOS 13.4 today. Feature updates and security fixes. MacOS released two updates to their beta program as well.

Also today Microsoft released an update KB4541335. This is NOT an automatic update, users need to use Windows Update and select.

## Yet another Microsoft Windows zero-day vulnerability 23-March-2020

The 0-day vulnerability in Microsoft's Adobe Type Manager Library (atmfd.dll) is being actively exploited according to a Microsoft advisory ADV200006.

The known exploits allow attackers to run code on a user's system and take actions on that user's behalf.

Consult the advisory at Microsoft's site for details and mitigations.
