

**Sun City Cyclists Club Board of Directors Meeting by Google Email  
January 24, 2022**

Mark Ogren reported by email dated January 13, 2022, to Phil Lahman, Club president, that the Sun City Cyclists Club (the Club) held a Bike Maintenance Event for the Sun City Community in 2021. He stated that none of the people who participated in the 2021 event had joined the Club or joined in Club rides. Mark noted that the event failed from the standpoint of membership recruitment. He also noted that the event requires close contact with unknown people and with the COVID pandemic still raging, the CA may not approve of the event.

Mark stated that the event was scheduled for May 7, 2022, and he recommended that it be cancelled.

Phil Lahman presented Mark's email to the members of the Board of Directors by email. Board members provided comments regarding Mark's recommendation to cancel the event for 2022. Thereafter, Phil asked for a motion regarding this recommendation.

Tom Barrett made a motion to cancel the event for 2022 and revisit that decision in the summer of 2022 to assess the safety and merits of the event. His motion was seconded by Leanne Waldo. Nine members of the Board voted "For" the motion, and none voted against it.
