- Ever want to be a presenter??

Presenter???

- A actor has unprecedented power
- BGP & DNS
- Russia has tested self-isolation
- Ukraine has been tested – inoculated
- SWIFT and cyber currency

Cyber Hacktivism

“WARNING”

 As a response to Western warmongering and American threats to use cyber warfare against the citizens of Russian Federation, the Conti Team is officially announcing that we will use our full capacity to deliver retaliatory measures in case the Western warmongers attempt to target critical infrastructure in Russia or any Russian-speaking region of the world. We do not ally with any government and we condemn the ongoing war. However, since the West is known to wage its wars primarily by targeting civilians, we will use our resources in order to strike back if the well being and safety of peaceful citizens will be at stake due to American cyber aggression.

Current Issues

- We live thru Digital lives as well
- Individuals own their data
- so do the platforms they inherit that data
- Helpful <-> harmful
 - pics of grandkids <-> Political rant
- AI and machine learning
- LARGE numbers of deceased data stores
- “biggest archive of human behavior”
- Digital collective narrative
- Care of physical remains
- Care of digital remains

Data & death

- Only living own assets/property
- Person & digital platform
- Crypto wallets & access
- Multi signature access
- Encryption – symmetric shared key

Death & Data

- Digital executor
- Passwords
- Biometric authentication
- Google Inactive Account Manager
- Facebook Legacy Contact

- WordPress sites receive forced patch
- WordPress UpdraftPlus vulnerability
- Xenomorph Android banking trojan
Google Playstore
3.48 million 3800 added per day
- QR codes easy TOO Easy?
Send Money, Open website, Open App
Trusted source
Check Site's URL, Certificate, Reputation,
etc.
Check for sticker, look-a-like duplicate,

Current Issues

- QR codes
 - Parking meters
 - Stealing bicycles

Current Issues

- Daxin
- Most sophisticated back door malware
- More hardened the target
- More susceptible to Daxin
- Windows kernel driver
- Magic cookie key

Curent Issues

- How much is cyber criminals?
- They pay ransom => WE pay the ransom

Inflation

Free tools for Privacy

- Alexa yellow ring
Notifications

Stop Alexa from reading out product names you have ordered

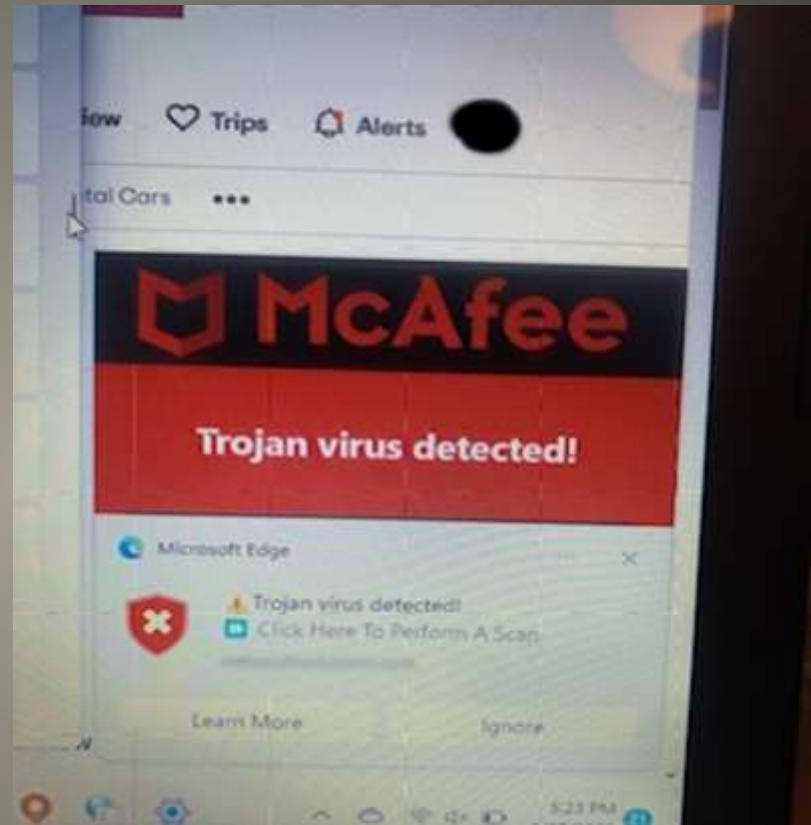

If you would rather the privacy of not sharing the names of products you ordered with everyone in your household, you can configure Alexa to stop reading out product titles.

- 1 Launch the Alexa app on your phone.
- 2 Navigate to Menu, then Settings.
- 3 Select Notification >> Amazon Shopping.
- 4 Toggle off the "Give Ordered Items' Titles"
- 5 All done. Your Alexa notifications will no longer list the products you have ordered by name

Alexa shopping notifications

FREE CYBERSECURITY SERVICES AND TOOLS

FREE CYBERSECURITY SERVICES AND TOOLS

As part of our continuing mission to reduce cybersecurity risk across U.S. critical infrastructure partners and state, local, tribal, and territorial governments, CISA has compiled a list of free cybersecurity tools and services to help organizations further advance their security capabilities. This living repository includes cybersecurity services provided by CISA, widely used open source tools, and free tools and services offered by private and public sector organizations across the cybersecurity community. CISA will implement a process for organizations to submit additional free tools and services for inclusion on this list in the future.
