  May 5 Password Day
  passphrase, please
  committed to build passwordless authentication
  Phones or smart devices
  PIN, drawing pattern, fingerprint, facial ID, etc.
  Simplicity & security
  Password capture

Yeahbut lose THE device …

User Experiences with Multi-device FIDO Credentials

Allow users to automatically access their FIDO sign-in credentials (referred to by some as a "passkey") on many of their devices, even new ones, without having to re-enroll every account.

Enable users to use FIDO authentication on their mobile device to sign-in to an app or website on a nearby device, regardless of the OS platform or browser they are running.

This graphic is a generalized representation of what the user experience may be.
